4th Conference & Expo

Genoa, Italy
9-12 June 2026

AMPP Italy Chapter is proud to announce the 4th edition of the International Conference and Expo that will take place in Genoa (Italy) at Magazzini del Cotone of Porto Antico.

The Conference is a consolidated event where specialists from Europe and worldwide will have the opportunity to discuss topics in the field of corrosion and protection. The Expo at the same time is a unique opportunity to share updated information regarding materials, equipment and services related to corrosion and its prevention.

Main topics of the event: corrosion in O&G plant, refinery and pipeline, hydrogen service, renewable energies, coating, cathodic protection, failure analysis, testing, inspection and monitoring.
