

3rd Conference & Expo 2024

Sharing knowledge, the way to go!

“An International event for the Corrosion Prevention”

CALL FOR ABSTRACTS

**Abstracts Submission Deadline:
December 22nd, 2023**

**GENOA, ITALY
9-11 June 2024**

Abstract can be submitted following the instruction on web site page:

<https://www.amppitaly.org/genoa/2024>

 The forthcoming conference will host experts from all over the world to present and discuss the latest advances in knowledge and technologies for corrosion prevention

 **Special workshops:** with **training** and **short courses** will be available

 **Social** and **Cultural** events for delegates and their guests.

Topics
Applied Research on Corrosion in Academia
Carbon Capture and Storage
Cathodic Protection
Chemical and Process Industry
Coatings & Linings
Corrosion Inhibitors & Monitoring
Corrosion Resistant Alloys and Welding
Durability of Reinforced Concrete
Failure Case Studies
Hydrogen Service
Miobiologically Induced Corrosion
Renewable Energies
Sour Service Pipelines
Student Session (Posters)

Under the auspices of:  **AMPP**[™]
Association for Materials Protection & Performance

With the support of:

CENTRO INOX

3rd Conference & Expo 2024

Sharing knowledge, the way to go!

"An International event for the Corrosion Prevention"

GENOA, ITALY – 9-11 June 2024

Short Abstract Submission Form

Fill in all fields. The short abstract should be in simple text, without images or tables, and contain a brief description of the contribution, together with the obtained results.

Authors & Affiliation:

Proposed Title of contribution:

Short abstract (max. 500 words):

Email:

Please, use a word processor for typing your abstract. Then, copy and paste the text in this window.

if simultaneous translation is needed please inform us:

NO, I don't need translation (English is the official Conference language)

YES, I need translation assistance (please, describe your language)

Applied Research on Corrosion in Academia
Cathodic Protection
Coating & Linings
Corrosion Inhibitors & Monitoring
Corrosion Resistant Alloys and Welding
Durability of Reinforced Concrete
Failure Case Studies

Hydrogen Service
Microbiological Induced Corrosion
Sour Service Pipelines
Carbon Capture and Storage
